All individuals reviewing this application are required under 35 USC 181 to sign and date this form regardless of whether they are making a secrecy order recommendation.

The attached copy of the application, any copies made therefrom and this form must be returned to the TO once a recommendation not to impose secrecy has been made or a secrecy order has been rescinded.

According to 35 U.S.C. 184, the subject matter of this application may be filed in a foreign country for the purpose of filing a patent application without a license any time after the expiration of 6 months from the filing date unless the application becomes the subject of a secrecy order.

4. The first condition is that the period of observation is sufficiently long to ensure that the effect of the treatment is not confounded with the effect of the treatment. The second condition is that the treatment is applied to a sufficient number of subjects to ensure that the effect of the treatment is not confounded with the effect of the treatment. The third condition is that the treatment is applied to a sufficient number of subjects to ensure that the effect of the treatment is not confounded with the effect of the treatment. The fourth condition is that the treatment is applied to a sufficient number of subjects to ensure that the effect of the treatment is not confounded with the effect of the treatment. The fifth condition is that the treatment is applied to a sufficient number of subjects to ensure that the effect of the treatment is not confounded with the effect of the treatment. The sixth condition is that the treatment is applied to a sufficient number of subjects to ensure that the effect of the treatment is not confounded with the effect of the treatment. The seventh condition is that the treatment is applied to a sufficient number of subjects to ensure that the effect of the treatment is not confounded with the effect of the treatment. The eighth condition is that the treatment is applied to a sufficient number of subjects to ensure that the effect of the treatment is not confounded with the effect of the treatment. The ninth condition is that the treatment is applied to a sufficient number of subjects to ensure that the effect of the treatment is not confounded with the effect of the treatment. The tenth condition is that the treatment is applied to a sufficient number of subjects to ensure that the effect of the treatment is not confounded with the effect of the treatment.
